

A Decade of Hope:

Over the past 10 years, hundreds of volunteers have traveled with HUFH to support our staff on the ground and help them deliver care to medically underserved communities. Today, HUFH supports multiple program sites, serving about 50,000 people, many of whom live in extreme poverty on less than \$2/day.

The Key to Our 10 Year Milestone?

More than just "parachute" service delivery or disaster response, HUFH invests in deep-rooted relationships that empower Haitian professionals to affect lasting and positive change in their communities.

The Next 10 Years and Beyond:

Inspired by the strength, hope and resilience of our Haitian staff, we will continue to provide support, education and guidance to them as they lay the groundwork for even greater impact.

Thanks to generous donors like you, Hands Up for Haiti has brought a decade of hope to the families of northern Haiti.

- Over 60,000 children and adults have been treated in our clinics over the past decade.
- Over 600 severely malnourished children are treated in our Medika Mamba program each year.
- More than 700 birth attendants and 300 medical professionals have been trained in our Helping Babies Survive program.
- More than 120 women at a time are enrolled in our prenatal nutrition and education program.
- 14 water wells have been built and are maintained in good working order, providing clean water to an estimated 56,000 people.
- 225 adult patients are currently enrolled in our hypertension clinics.
- Over 500 children have received life-saving medical care through our Pediatric Emergency Fund.
- More than 2500 women have been screened and about 200 treated for cervical cancer.
- Over 1500 patients have been screened for vision and blindness prevention.
- Nearly 1000 volunteers from the US and Canada have volunteered in HUFH medical missions.

And with your continued support the future is brighter than ever.
